## **Robert O. Harris, M.P.H. Joins Accutest Laboratories as Vice President Business Development/Marketing**

New York--(BUSINESS WIRE)--July 17, 2008 - Accutest Laboratories, a premier national environmental testing company, announced today that Mr. Robert O. Harris, M.P.H. has joined Accutest as Vice President Business Development/Marketing. He will be in charge of directing the national business development and marketing efforts to effectively meet the analytical testing needs of the national environmental marketplace. Mr. Harris will work with Accutest's management team to support the service needs of its customers and implement the company's strategic growth and marketing plan. He will advance Accutest's established corporate philosophy of developing long term business relationships through dedication to client services, technology, and strong consistent management with its customers.

"We are pleased to have Mr. Harris lead our business development and marketing team," said Vincent Pugliese, President and CEO. "Bob brings to Accutest an outstanding reputation of solving clients' environmental challenges and advancing their business objectives which is aligned with our company mission and corporate philosophy."

Mr. Harris possesses 30 years of experience in public and private consulting specializing in public health, regulatory compliance, environmental remediation and laboratory services, Brownfield's redevelopment and risk assessment. His expertise includes environmental auditing and environmental management systems evaluations. Mr. Harris has a long history of success working for large, well established consulting companies in sales, marketing, technical and operations positions. He was formerly Senior Vice President and Key Account Management Program Director with TRC Companies, Inc. Prior to TRC, he held operational and management positions with Foster Wheeler Environmental Corporation now a division of Tetra-Tech and Roy F. Weston, Inc. now Weston Solutions. Bob holds a Master's degree in Public Health from the University Of Medicine and Dentistry, Robert Wood Johnson Medical School, and a B.S. in Environmental Science from Ramapo College. He is a Public Health Officer in the State of New Jersey and Environmental Health Specialist in New Jersey and nationally.

### About Accutest Laboratories:

Established in 1956, Accutest is the third largest operator of environmental testing laboratories in the United States. As a full service independent testing laboratory, it has been successfully delivering legally defensive data for more than 50 years. It provides a full range of water, soil, and air testing services to industrial, engineering/consulting and government clients throughout the United States. Operating from coordinated laboratories in New Jersey, Massachusetts, Florida, Texas, and California, Accutest resources include a staff of 340 and more than 110 thousand square feet of laboratory space.
